

# Meeting the educational needs of EVERY CHILD

## The Leandro Plan

## Sampson County Schools

North Carolina's legislative roadmap for delivering the constitutional standard of education

Since 1994, the *Leandro v. State of North Carolina* court case has consistently shown that children are being deprived the sound basic education guaranteed by the state constitution.

### PROBLEM:

 State funding hasn't kept pace with student needs, forcing districts to **cut back** on staff, services, supplies, technology, and facility upgrades.

### SOLUTION:

 The Leandro Plan shows the state how to provide the required education standard by ensuring **adequate funding** and **targeted support** for the unique set of student needs in each district.

## HOW LEANDRO WILL SERVE YOUR COMMUNITY

*Under the Leandro Plan, the state would supply the following funding amounts by 2028:*

**Sampson County Schools**  
K-12 PUBLIC EDUCATION

**\$25.5 MILLION**  **44%** budget increase

that funding could provide:

  
**48 MORE**  
teacher assistants

  
**12**  
Community School Coordinators

  
**65 MORE**  
nurses, psychologists,  
counselors &  
social workers  
(Instructional Support Personnel at industry-recommended levels)

  
**140%**  
increase in funding  
for **textbooks,**  
**supplies & instructional materials**

  
**\$1,190**  
per teacher for  
professional development

**Sampson County**  
EARLY EDUCATION - programs for children birth to age 5

**\$7.5 MILLION**

that funding could provide:

**80 MORE**  
slots for **NC Pre-K** 

**362%**  
increase in funding  
for **Smart Start** 

**404 MORE**  
children in the  
**Infant-Toddler Program**

### The Leandro Plan

maps out how **YOUR DISTRICT** can give children the education they're owed. **YOUR VOICE** is needed to convince lawmakers to enact the plan.
