North Carolina’s PUBLIC EDUCATION SYSTEM isn’t providing students the minimum constitutional standard.

We need elected officials who will PRIORITIZE CHILDREN’S NEEDS.

Leandro v. State of North Carolina
Since the Leandro case was filed in 1994, the courts have consistently found:
- far too few students are receiving an education that meets the state’s minimum standard.
- graduates are underqualified for jobs offered by North Carolina businesses.

State lawmakers are responsible for correcting the course by enacting:

The Leandro Plan
North Carolina’s legislative roadmap for meeting the educational needs of EVERY CHILD.

Yet, the legislature willfully refuses to fund this nonpartisan, carefully-researched, and affordable plan.

We must hold ELECTED OFFICIALS accountable for delivering the standard of education that’s owed - before another generation of children is left behind.

Communities for the Education of Every Child NC is a community-led, statewide coalition of organizations, parents, teachers, and students who advocate for every child’s constitutional right to a sound basic education.
