Communities for the Education of Every Child NC

We advocate for **EQUITABLE FUNDING** in public education.

We are responding to community concerns about **equal access to educational opportunity** in North Carolina's public schools.

We are **building partnerships** across the state to mobilize community leaders, parents, students, educators, advocates, and elected officials.

We are a community-led, statewide COALITION.

Representatives of the following groups serve on our coordinating committee:

North Carolina
Early Education Coalition

OUR VISION:

All children, particularly underserved and vulnerable student groups, receive the funding and supports they need to realize the education that was promised to them.

JOIN US

Let's work toward a future in which **EVERY CHILD** in North Carolina receives the education they are owed, no matter their needs or where they live.
